**1 Komatsu Tenmangu Shrine**

Found along the Kakegawa River, one of Komatsu's major tributaries to the Sea of Japan, it was built in 1657 by Lord Maeda Toshitsune, the 3rd chief of the old Kaga domain's ruling Maeda clan. It was the first structure in Japan to utilize the floating island technique for flood control and protection of its numerous national Important Cultural Properties. Around 80 plum trees of both the white and red variety are grown in the grounds.

**2 Rojo Park**

A park built upon the ruins of the outer walls of Komatsu Castle, which had served as the retirement castle of Lord Maeda Toshitsune. You can enjoy seasonal beauties throughout the year, including cherry blossoms, pines, wisteria, azaleas, lilies, maple leaves and yukitsuri (snow-covered tree nettings). Conveniently located within the grounds are also museums, a library and a teahouse.

**Why ♥ Mt. Hakusan?**

Along with Mt. Fuji and nearby Mt. Tateyama, Mt. Hakusan is one of Japan's "Three Holy Mountains". These mountains have been revered as Shinto deities and powerful spiritual centers since ancient times. "Haku" means "white" and refers to how the mountain's peaks remain visibly snowy year-long. Komatsu's proximity has blessed locals with the mountain's pure waters and spectacular views throughout the year!

**4 Science Hills Komatsu**

Opened in March 2014 as a hub for "science and human development", it serves as a stage for nurturing innovation, bursting with the joy, wonders and charms of science. From Japan's largest 3D planetarium, to the interactive exhibits that demonstrate both scientific principles and their applications in manufacturing, it is a delight for children and adults alike.
